YOU CAN'T OVERLOOK  
MT. LEMMON!

## UPPER SABINO CREEK WATERSHED RECOMMENDATIONS

August 12, 1977. Friday evening at 8 p.m. has been tentatively set for a Community Meeting to elect a Mount Lemmon Community Board of Directors or Executive Committee for the specific purpose of working out Community related problems from within the Community. The meeting will be held at the Mount Lemmon Accomodation School at the end of Summerhaven Road near Marshall Gulch. Should there be a necessary change in the date, notices will be posted at the Post Office Bulletin Board, and at The Emporium and The Vine. Nominations should be made officially at that time for Members of the Mt. Lemmon Board of Directors or Executive Committee.

61 homeowners and environmentalists attended the July 21st meeting at the Pima County Board of Supervisor's Hearing Room which was sponsored by Pima Association of Governments, (which deals with water pollution and water quality). This meeting was in addition to the previous meeting held by P.A.G. at the Mt. Lemmon Schoolhouse on July 7th relating to Sabino Creek waters.

It has been determined that there are two major sources of pollution to the Upper Sabino Creek Watershed:

- 1: Mt. Lemmon Wastewater Treatment Plant and sewer system.
- 2: Horse and animal corrals near the creek.

P.A.G. recommends the following: (see Page -7- for P.A.G. Tables):

1. Amend existing 201 plans for a community sewage treatment facility and to place the existing 45 connections on an appropriate on-site disposal system.
2. Establish survey procedures to locate improperly functioning septic tanks on private and Forest Service land. Deficient systems must be improved or replaced.

Continued - Pg. -3-

## JULY 15th EDITION OF NEWS DESTROYED BY VANDALS AT TUCSON PRINTERS

The July 15th edition, which contained numerous photographs by Mt. Lemmon's noted photographer, Leslie May, which was to be an enlarged Pictorial edition for the July 4th Women's Club Annual Arts & Crafts Festival was unable to be printed due to excessive vandalism at the printers in Tucson, in which the photographic equipment was severely damaged. This necessitated pulling the entire edition, which will be published at a later date, and will include the photos.

Subscribers will be credited accordingly. The News apologizes to our buying public for this excessive delay in getting to press, and can only fall back on the old platitude 'better late than never.'

We wish to thank you for your patience.

## THE MOUNT LEMMON WOMEN'S CLUB STORY as told by CHRISS SHELTON

The Women's Club was formed in August 1973. Officers serve from May to May of each year. The first President was Francie Morse, (our present Post-Mistress), until 1976 when Chriss Sheldon took office. Our present President is Florence Wilhoite.

In 1973 the Forest Service put land aside for use as a church building under Mrs. Royal B. Irving, (Ruth), and Catholic services were held at The Ponderosa. Money was hard to raise at that time so the land was eventually lost. After The Ponderosa burned, The Inn became a general meeting place, where school activities, PTA meetings, etc., were held.

Dr. Conrad Joiner, who headed the Board of Supervisors, Tucson; and Anita Lohr, Superintendent of Schools, Tucson and other officials met with the Mt. Lemmon Women's Club

NOTE : NO GAS IS AVAILABIE ON The MOUNTAIN

## WOMEN'S CLUB STORY

+ + + + +

Cont'd from Pg. -1 - : members who wished to obtain these leader's ideas for creating constructive activities in Summerhaven under the auspices of the Woman's Club.

Without the backing of the Zimmerman's, Ms. Sheldon said, nothing could have occurred on our mountain.

Mary Bender, a 20 year resident and Chriss Sheldon got the idea for The Woman's Club during a conversation in July 1973, and began immediately to persue the possibilities. Gloria Bell, when contacted, said that it was a great idea, but that it would never happen. Original members were Linda Baker, Joan Choate, Chriss Sheldon, Francie Morse and Mary Bender. Membership in the General Federation of Women's Clubs was obtained and chartered in November 1973 with the first election of officers held in August. Membership was also obtained in the Arizona Federation of Women's Clubs.

We are proud of being members of the largest Women's Organization in the world, which has, in Arizona alone, 5,000 members. Worldwide there are 10,000,000 members, who have been responsible for many national firsts :

## PROPOSED AGENDA FOR VILLAGE MEETING - AUGUST 12, 1977

+ + + + +

The Village Meeting, tentatively set up for Friday, August 12, 1977 at 8:00 p.m. has been called by mountain residents, with the endorsement of Carol J. Dorsey, Public Participation Specialist for P.A.G. She agreed that the mountain community needed a Committee of some sort to work on Community Projects, including Sabino Creek Water Project, and to give a continuity between Pima County and Mount Lemmon. It was suggested that the Board be made up of seven members - serving two year terms, with elections of three members every two years.

We need suggestions as to length of term and number of Boardmembers, etc. Please bring your suggestions and information to the August 12th meeting for consideration, as the first half hour will be devoted to discussion and determination of these points.

A Proposed Agenda is as follows, with a selected Moderator to start out:

- Brief history as to why this meeting has been called.
- Election of a new Moderator, or keep present one.
- Determine the number of Board or Council Members.
- Determination of the length of office.
- Pick three people to count votes.
- Nominations for Council Members.
- Voting.
- Results - Set date for first Board Meeting.

See you there!

+ + + + +

## WE GET LETTERS.....

"...The process of thought is intriguing. I'm continually fascinated with the wonderment of how it happens.

- along with enjoying the happening. Some Process.! ...You're about what you're about! I knew you expected to write a lot while on and in Mt. Lemmon. It must be exciting and exhilarating to experience the pursuit and the accomplishment.... Mt. Lemmon sounds breathtakingly beautiful. The atmosphere of it must permeate and flow through you. ...The thought of visiting a few days thrills me....If I can get a 3-day weekend, I'd like to take a trip there.....

Lillian Brynjegard  
Canoga Park, Calif.

JULY 4th - Cont'd fromPg -3-

+ + + + +  
(Entries appear on Page -9-), Girl Scouts were there (without their cookies); Woodsy Owl and a Monster Mayor Candidate bearing the placard 'Mayor - Or Else!'; truck loads of people of all ages; the Mayor Candidates, Jimbo Morse, Chriss Sheldon; TuTu Divine Mayor Billy, Comanche (the Horse), and Smoky the Bear; The Fire Truck, the Forest Service representatives, etc., etc., etc. A lot of fun!

Most businesses reported that an event such as this should be scheduled monthly business was so well advanced.

Then, when it was all over, down came the booths, the logs stowed away beneath the frame of a cabin nearby for use at a later date, and the grounds where The Ponderosa used to stand were vacated once again.

Exceptionally fine TV News coverage was provided this year for which we are all grateful.

+ + + + +

## SABINO CREEK RECOMMENDATIONS

+ + + + +

Cont'd from Pg. -1-:

3. Preview and develop new standards for the construction of new on-site waste disposal systems.

4. Construct and maintain no discharge public restroom facilities in Summerhaven for solid waste residuals reduction and prevention.

1). Establish an educational program to reduce littering by recreationists using Upper Sabino Creek Watershed.

2). To arrange for animal waste disposal and prevention through possible removal of horses/livestock from Upper Sabino Creek Watershed.

3). Establish routine programs to round up stray dogs on the Upper Sabino Creek Watershed.

4). Establish an education program to encourage water conservation by Summerhaven and Forest Service residents.

5). Establish a land use planning program in which development on Sabino Creek reflects water quality goals.

6). A continuing water quality monitoring program should be established to assure the recommended program is achieving water quality goals.

7). The continuing water quality program will evaluate the Mt. Lemmon pollution abatement program.

The costs of cleaning up Sabino Creek will depend upon which choices are acceptable to our residents. The only way your preferences can be considered is if you SPEAK UP!

Rather than to see this environmental situation as a negative one, or defeating one, we, as residents can choose to see it as a means of accomplishing more realistic Community involvement autonomously.

It is quite apparent from what officials of P.A.G. have stated at the previous meetings, that *something* will be done, either with or in spite of our desires for the Sabino Creek area.

How much better to organize, as residents, to work with, and handle decisions relating directly to our community? Through our banding together, empowering a Board of Directors or an Executive Committee - chosen by our residents to act and/or speak for ourselves as a Community is a major step forward.

We need ideas, relating to an educational program for the visitors relating to dog-care, litter, and general Land-Use. Regarding the existing animals, as a beginning suggestion,

perhaps all horse owners of the Mt. Lemmon area could have a joint corral area.

If our readers have other suggestions to any of the recommendations, please write them out and submit them to The News, P.O. 725 (be sure to stamp the envelope) Mt. Lemmon, AZ 85619 and The News will see that your suggestions are passed on to the elected Board of Directors, or the Executive Committee (whichever is chosen).

+ + + + +  
JULY 4th ARTS & CRAFTS FESTIVAL DRAWS LARGE CROWD - EVEN WITH HEAVY RAINS !

+ + + + +

In what has been variously estimated at 6 - 10,000 people for the entire weekend, the Mt. Lemmon Women's Club's Annual Arts & Crafts Festival was very well attended.

A major draw was the Blue-Grass Jam Session on Sunday afternoon. Young people sat on the ground throughout the area in front of the Post Office - listening as numerous performers gave out with their best. Among them was Kathy Sweeney and the Guitar Workshop of Tucson. Ms. Sweeney has recently joined the Swing Shift group as lead singer and will be performing at The Alamo, The Oxbow and the Stumble Inn - all in Tucson.

The event had its beginning several weeks prior to the holiday, when a group of about a dozen Women's Club members and interested husbands and friends gathered to cut down trees which the Forest Service had donated to The Woman's Club for the Festival. Many of the trees had been in a fire previously, so the participants wound up black and sooty. Loaded into a pick-up truck for the trek in to Summerhaven, the booths were built the following week-end by volunteers in the Community. After working all day - logging - the tired but happy and enthusiastic loggers joined in a drink at The Vine.

Ronald McDonald was a frequent visitor to all areas of the Festival and was sponsored by the Tanque Verde McDonalds in Tucson, through the auspices of Al and Bud Roberson.

Politics reared its head throughout the Festival, (the results of the Mayoral Race are on Page -10-), with more Candidates this year than there has been in previous years. Billy (The Wonderful) Clark, Incumbent, won by a slight, although protested, margin.

It was rumored that Ronald McDonald would possibly be a candidate for next year's race.

The Annual July Fourth Parade had more entries this year than in previous years, as word of the Parade spread. Very colorful, and lots of fun, (Continued on Pg. -2-

...THE VIEW FROM CITY HALL ... by Wonderful Billy, Mayor of Mt. Lemmon

+

The eyes of the world were upon Mt. Lemmon this past week, (July 4th). The sane and civilized of the universe rose as one to give a standing ovation to the thousands of people that flocked to Mt. Lemmon to cast the needed votes which re-elected W.T. Billy as Mayor.

Boy, am I glad that's over for now I don't have to be nice to anyone for another year. I would like to thank all those that voted for me and special thanks to: Jonnel the Chicken for the ice cream, Chuck Messing for threatening my opponents, Martin Mollo for another successfully devious campaign management, and of course Me, without whom none of this would have been possible. I would also like to state that the rash Daniel Gutierrez has come down with was not from my kissing him.

The annual betting to see which campaign promise I'll break first is in full swing. I won't give any hints, but my own money is riding on 'Succeeding from the Universe.'

As in every election, there were many allegations of stuffing of the ballot-box. I deem this highly possible and that is why upon verification of my re-election, I demanded a recount. From the voters I talked to, I should have received over 1,000 votes, and each of my opponents less than 50. I was robbed!

The saddest part of the entire election was the raining out of the great debates. Then again, this may have been the best thing that happened. Since the debate was scheduled on the last day the poles were open, it could have caused a riot. All the misguided persons that voted for my opponents upon hearing my gems of genius would have assailed the ballot booth demanding a chance to recast their vote in favor of me! Though Mt. Lemmon is a neophyte when it comes to politics, (a Mayor only for 3 years!), all Lemmonites may be proud of this last election. We've proved to ourselves, that we take a backseat to no community when it comes to the American Tradition of Dirty Politics! Yours 'til the hangover subsides! Mayor Billy

## WOMEN'S CLUB Continued

From Page - 2-

+ + + + +

for getting the first child labor laws passed in Congress. and are also responsible for obtaining the 40 hour workweek.

The Women's Club also works to improve conditions for the mentally retarded, epileptics, and the insane. Project HANDS UP is also sponsored by The Women's Club. Funds are also obtained for an Artist's Fund used to maintain the arts with in our country, and to provide better working conditions for the propagation of the arts.

It is hoped that the Mt. Lemmon Woman's Club's efforts during the recent July 4th Arts & Crafts Festival will provide greater incentive on the parts of our citizens for persuing the dream of creating a Summerhaven Community Center making it a reality, and to begin again to approach the County officials and Departments with new vigor toward making Summerhaven and Mount Lemmon with concrete ideas for our growth and the maintainance of the natural beauty of our mountain.

(Editor's Note:) At one time there was a Steering Committee set up for the purpose of improving Mt. Lemmon's facilities and maintaining the mountain's natural facilities. Perhaps we are approaching the time once again when a Steering Committee can be formed. Certainly we are in need of various controls denied us due to the fact that we are not a 'city, a township, or a village'. Our Water Co-op is a major step forward, and if, as was stated at the recent meeting of the Water Quality Planning Group held at the Schoolhouse July 7th, if we band together *as a community* and clean up our own water-pollution problems, as well as 'curb' wandering dogs - we can very possibly avoid having outside interference.

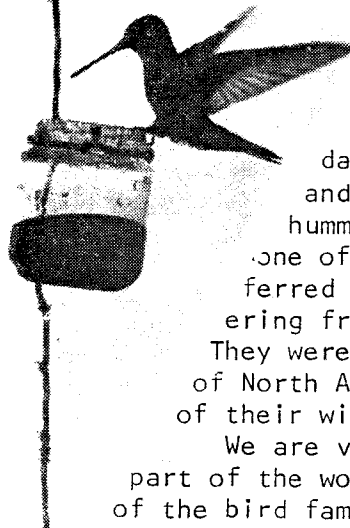

COMMUNITY CENTER - HERE WE COME!!!

## OUR FEATHERED NEIGHBORS

## Bird Watching - Part I

by JoAnn Pooler

## HUMMINGBIRDS

A jewel flashing in the sun, dancing, hovering, winging here and there - our friends - the hummingbirds. John James Audubon, one of the greatest naturalists, referred to the hummingbirds as "glittering fragments of the rainbow." \* They were named by the English Colonists of North America, when hearing the sounds of their wings.

We are very privileged to live in that part of the world where the smallest member of the bird family resides. They can be a real source of enjoyment to young and old alike, watching their aerial acrobatics and flashing colors.

The hummer lives only in North, Central and South America and neighboring islands. They have never been seen by Europeans unless viewed by them on travels to our part of the world. The only eastern hummingbird is the Ruby-throated, the division being the Rockie Mountains. All hummers dine very frequently, one might say continually, on flower nectar (real or artificial) aphids, spiders and other small insects.

At my home on Mt. Lemmon, over the past 7 summers, I have watched and enjoyed the antics of 8 different species. There are 600 in all, mostly living in South America around the equator.

Hummingbirds to watch for on our mountain are:

- Black-Chinned -- Black chin, blue-violet throat.
- Calliope -- Gorget (throat feathers), with purple-red rays on a white ground. The smallest hummer normally found in the U.S. usually on the high mountains.
- Riboli -- Large, black, bright green throat and purple crown.
- Blue-throated -- Large, black and white eye streaks, light blue throat with large white tail streaks.
- Anna's -- Rose-red throat and crown. Male sings.
- Broadtailed -- Rose-red throat, green crown and back wings trill in flight. Most common hummer in the Summerhaven area.
- Rufous -- Orange-red throat, rufous back.
- Allen's -- Like Rufous but upper back is green.

Only the males have been described as some females are extremely difficult to distinguish in the field.

\* "Enjoy The Hummingbirds" by Oliver Griswold

Next Edition: Feeding the Hummer

VISITOR: DAISY MAE

THE Daisy Mae came to  
 Dogpatch (Summerhaven) to  
 spend a week recuperating  
 from the rigors of 'city'  
 life.

Nancee Parkinson, who was  
 4th Runner-Up for Miss  
 America, and who played  
 the role of Daisy Mae in  
 the film L'il Abner spent  
 a week visiting the Editor.  
 She promptly fell in love  
 with Mt. Lemmon and those  
 people here whom she met.  
 She insists that she will  
 be spending more vacations  
 here - despite the incon-  
 venience of the editor  
 taking out walls (remodel-  
 ing) in his cabin.  
 Ms. Parkinson returned to  
 her home in Los Angeles  
 June 24th.

Mayor Billy (The Wonderful)  
 upon taking office gave his  
 first Proclamation of 1977  
 "July 4th shall heretofore  
 fall on June 18th, to avoid  
 the rains!" Yea!!! Billy.

## JULY 4th WEEKEND - SHERIFF'S REPORT

+++++

From the 2nd through the 4th, approximately 20,000 individuals visited our mountain, from its base to Summerhaven, drawn mostly by the rains, which opened the campgrounds to picnics and sharing the out-of-doors - so important to Tucsonians trapped in the heat of the desert summers. The following report was taken from a conversation with the three Sheriffs assigned to the Mt. Lemmon area: (does not include Monday July 4th which drew smaller amounts of traffic): 6 auto accidents in which 3 cars totaled; numerous fender-benders; 1 motorcycle totaled. All accidents had been drinking and while no arrests were made, citations were handed out. A separate accident occurred in Summerhaven in which a small boy's leg was fractured. 12 public assists when cars were broken down; 2 burglaries of cabins, 1 non-accident illness requiring ambulance, 3 assaults, 1 serious. No dog incidents were reported. 2 vehicles backed over mountain-side prox 30 feet and were towed back onto roadway. 1-13 year old boy fell off a cabin roof.

Considering the numbers of people drawn to our Annual Arts & Crafts Festival and while this does not reflect the entire weekend, it does present a reasonable indication of the extent of situations occurring when we have an event drawing large numbers of people to our mountain, to be considered for staging future events.

Consideration is being given to staging a Winter Festival, similar to that held years ago in which winter games will be available, including Arts & Crafts booths, although no dates have as yet been set.

+++++

Gray skies,  
Barren trees,  
Reflections of my being.  
Once touched  
By fullness and life.  
Feel nothing,  
See nothing,  
Waiting.

ELECTION RESULTS, DAY BY DAY

\*\*\*\*\*

In what appears to be a champion ballot-stuffing orgy, the following numbers of votes were cast, resulting in there being far more votes than there were voters. Mt. Lemmon only has, at the most, 200 or so individuals residing here.

July 2nd:	3rd:	4th Noon:
Tutu Divine.....7.....	130.....	172
Chriss Sheldon...18.....	88.....	123
Jimbo Morse.....38.....	127.....	134
Billy Clark.....193.....	249.....	304
Comanche .....3.....	9.....	9

July 4th - Final Tally

Tutu Divine.....	305
Chriss Sheldon.....	188
Jimbo Morse.....	164
Billy Clark.....	450
Comanche.....	16
Smoky The Bear.....	3

Mary Ann Arford, Registrar guarded the Voting Booth and Ballot Box with religious zeal and was only lured away through being photographed numerous times, as was Francie Morse, her zealous assistant. (Wonder if there was film in the camera?? since there were so many pictures taken of registrars which demanded posing - usually with backs to the Ballot Box.)

One stalwart member of our community, who shall forever remain nameless, got to the voting booth too late to be counted and in a fit of pique disclosed at least 70 votes for Tutu, 3 for Chriss Sheldon and 1 for Jimbo hidden in (her) coat pocket.

\*\*\*\*\*  
Mrs. Elizabeth Watkins and her sons Luke and Paul visited Shirley Evell, her mother in Carter Canyon from July 5 - 12.

\*\*\*\*\*

\*\*\*\*\*  
When walking your dog please carry a litter bag...help keep Summerhaven and Mt. Lemmon beautiful...and unpolluted.

\*\*\*\*\*  
"When faced with a doorway take courage and step thru, to change your view of the world, change your world."  
...D. Miles I AM THAT I AM

But the election had already been thrown in something kind of like a ballet of 'managers' prancing about the Registrar's booth, putting up posters and the like.

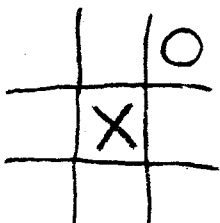

A total of 1,126 votes were cast which indicates a much larger community spirit than we even knew was here.

It is rumored that next year, Ronald McDonald is running for Mayor.

When given the key to the City by Registrar Mary Ann Arford and Women's Club President, Florence Wilhoite, the Incumbent and 3rd Term winner, Wonderful Billy Clark stated vociferously that he 'wanted a recount - that there should have been more votes in his favor. He also informed the Tucson Star that he was going into religion and was leaving the office of Mayor after this term in office.

Tutu Divine, Vice-Mayor was exposed, in the words of the Women's Lib Candidate, Chriss Sheldon as 'being an imposter, since she was the only 'authentic woman running.' Jimbo Morse went back to school, while his brother demanded that he be allowed to run next year. At this rate future candidates will be born into office. Comanche, a horse, won the Great Debate (due to rain) and the brilliance of his countering the other candidates by not showing up.
